Fiberite
Umbrellas
The first name in fiberglass

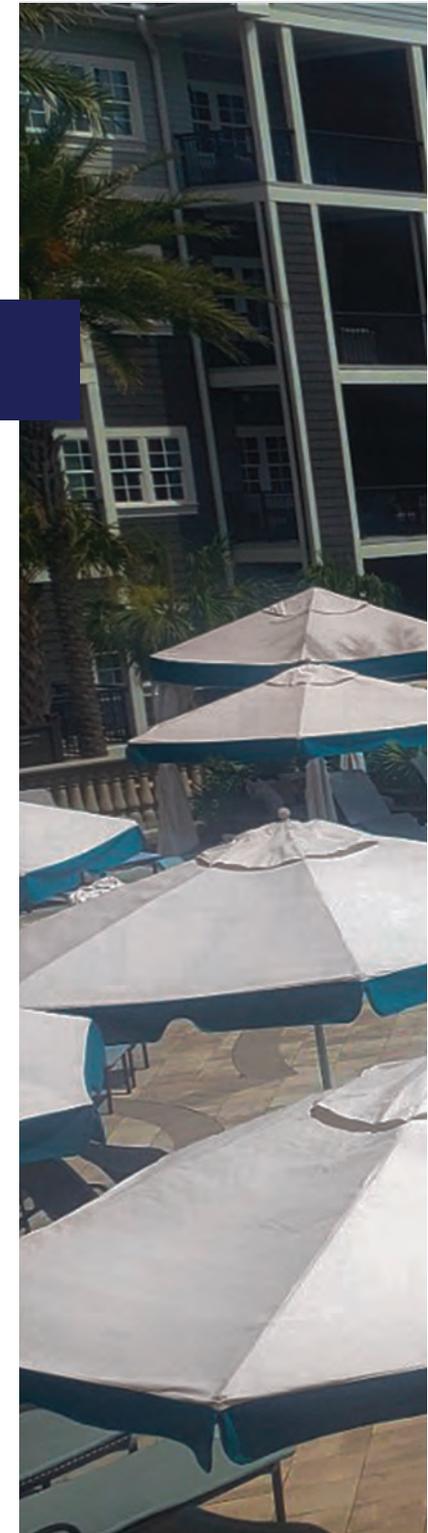

THE ORIGINAL FIBERGLASS FRAME UMBRELLA

Fiberlite Umbrellas was granted the first U.S. patent for a fiberglass frame umbrella in 1987. Since then, we have refused to compromise the integrity and values that we founded our company upon more than 30 years ago. Still family-owned, we are the only umbrella manufacturer to design, source and handcraft our fiberglass frame umbrellas exclusively in the United States.

By ensuring the quality of our fiberglass, we are able to create a superior product to those who import their fiberglass components. More strength, less weight, and the best warranty in the industry – five years complete. Our products have been time-tested in the extreme conditions of South Florida, and we still personally speak to every customer to guide them through the best products to meet their needs.

Whether you are a longtime partner or have only recently discovered the Fiberlite advantage, our extensive knowledge, one-on-one customer service, and competitive pricing will keep you a part of our Fiberlite family. One look, and you'll see why life is better under a Fiberlite umbrella.

Ray Sun
Founderland CEO

A close-up photograph of a metal pulley block with a white rope passing through it, set against a dark blue background. The pulley block is made of polished metal and features a central sheave with a rope groove. The rope is a thick, white, braided synthetic material. The pulley block has several circular holes on its side and a small metal ring at the top. The background is a solid, dark blue color.

BEACH CABANA

Beach and Poolside Cabanas

Our Cabanas can fold flat and come available with an optional mesh panel for increased air circulation. Two chairs and a side table fit within the large Cabanas, making them ideal for rentals.

CABANA HOODS:

FL57LC: LARGE - 5' HIGH X 7' WIDE

Can be mounted to pool deck or secured in the sand.

BEACH CHAIR

Constructed of oak hardwood, brass hardware and marine-grade Sunbrella/Outdura fabric, our Beach Chair has a 3-way adjustable seat back, and folds flat for easy transportation and storage. Footrest option is available.

FL101BC

FL101BCF: with footrest

SPA SHADE

5' wide x 6' long removable canopy
with optional privacy curtains

SPA SHADE

1 1/2" fiberglass frame with aluminum connectors allows instant shade for most standard size hot tubs or patio deck furniture. Add curtains for privacy as an option. Featuring quick release stainless steel coupler pins for easy removal of the canopy

FL56SS: 6' tall x 5' wide x 6' long

FL56SSC: with curtains

SPA BASE

Solid aluminum deck base designed for an individual umbrella or our signature spa shade. Can be mounted to the ground or placed underneath a hot tub spa.

Powder coated aluminum color of choice

FLSB: 18" long 8" wide 1/2" thick

ACCESSORIES

RESIN SAND ANCHOR

FLSAP: Our traditional anchor is constructed of heavy duty resin with a simple hand crank design.

PREMIUM SAND ANCHOR

FLSAN: Forged from heavy-duty aluminum, this upgraded sand anchor is drill-compatible for fast and easy installation.

Drill attachment sold separately.

SAND ANCHOR ATTACHMENT

FLSAA: Aluminum attachment for wood beach poles for stronger sand anchoring.

RESIN TABLE

FLSAT: Heavy duty resin table top featuring built-in drink holders and a screw lock attachment design.

POOL SLEEVE

FLPS: Our pool sleeve securely fastens umbrellas into the built-in holes in your pool or shelf ledge eliminating any wobble or lift of the umbrella.

CUSTOM GRAPHICS

Fiberlite Umbrellas can add custom screening or heat-transfer logos and graphics to your umbrellas to enhance branding.

CUSTOMIZATION

BANDING

Available in 4", 6" or 8" strips, Fiberlite Umbrellas can be banded to fit your style.

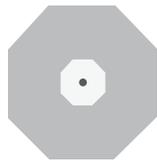

SHAPES

Whimsical shapes can be tailored to create a look that is uniquely yours.

2-SIDED

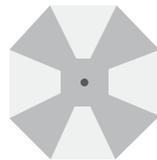

We can use specialty fabrics or your own materials to give the underside of your umbrella an extra pop of personality.

Single Vent

Middle Vent

Alternating Panels

CANOPY PROFILES

Choose from endless color combinations to create your own look. Middle vent option comes standard on all 11' umbrellas.

FRAME OPTIONS

POLES

1 or 2 piece Fiberglass poles 1 1/2" diameter.

Fiberglass

Wood

Colors only available in 2 piece poles

Aluminum

Available in standard or anodized aluminum. Custom powder-coating also available in hundreds of colors. Call for options and pricing.

RIBS

.302 / .500

.750

AUTO-LOCK

The optional auto-lock pulley system makes easy work of opening and closing our heavy-duty, .750-framed umbrellas. As the umbrella fabric naturally softens over time, the cam cleat design lets you easily increase tautness without the need for additional pin holes.

Photo features mahogany woodgrain with manual pin-and-chain locking mechanism.

WARRANTY

#1 in the Industry

OUR PROMISE TO YOU

We believe there is no worth in gaining success in this world if it means sacrificing your principles and beliefs to achieve it. That's why we stand firmly behind the quality of what we create. Our fiberglass frame umbrellas come with a 5-year, comprehensive warranty – the best available in the industry.

WARRANTY DETAILS

Five-year warranty excludes furniture-grade, texoline, polyester, or customer-provided fabrics; logo graphics and silk screening; aluminum crank poles and wood-bottom poles. Warranty does not apply to damages incurred from acts of God, weather-related incidents, improper securing or storing, vandalism, misuse or neglect. It is strongly recommended to close umbrellas in windy conditions or inclement weather in order to minimize damage.

RETURN INFORMATION

Contact your sales representative for repair or warranty requests. All warranty claims require authorization from a Fiberlite representative prior to shipment. Claims are subject to inspection upon receipt. If warranted, Fiberlite Umbrellas will pay return shipping fees and correct the issue. If the claim is not covered, the customer will be notified and billed for all repair and shipping charges.

MADE IN USA

Since the beginning, our umbrellas have always been sourced, manufactured and assembled right here in the United States. Our dedication to ensuring our fiberglass and materials are of the highest quality is paramount to the ideals upon which we were founded.

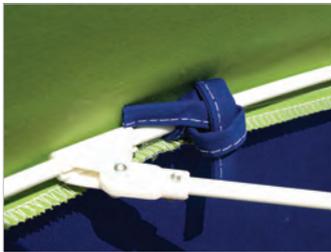

QUALITY YOU CAN SEE

Canopy

Top-of-the-line, marine-grade fabrics are standard on our umbrellas.

Inside Tie

Extra inside ties secure the fabric to the frame to prevent parachuting.

Wired Ribs

Wired-together framework adds strength and stability over individual rib connections.

Pockets

Triple-sewn with 92 UV polyciten thread, our reinforced pocket corners create added durability.

Vent

As fabric naturally softens over time, tie-on vents allow for gentle tightening of the fabric, as well as easy removal for washing or replacement.

Pole

Our patented fiberglass poles and frames will not warp, rust, rot or oxidize.
